

ADDITIONAL MATHEMATICS

International General Certificate of Secondary Education

Grade thresholds taken for Syllabus 0606 (Additional Mathematics) in the May/June 2011 examination.

	maximum mark available	minimum mark required for grade:		
		A	C	E
Component 11	80	64	31	19
Component 12	80	65	32	19
Component 21	80	63	32	19
Component 22	80	62	31	19

The threshold (minimum mark) for B is normally set halfway between those for Grades A and C. The threshold (minimum mark) for D is normally set halfway between those for Grades C and E. Grade A* does not exist at the level of an individual component.

The thresholds for the **syllabus** are determined first by adding together the thresholds for the components taken by the candidate. A reduction may be made at the higher grades depending on the correlation of the papers. If the maximum raw marks for the components are not in the weighting/relationship specified in the syllabus, a weighting is applied to arrive at the overall thresholds. The A* threshold is calculated using the difference between A and B as a starting point.

The maximum total mark for this syllabus is **160**.

The overall thresholds for the different grades were set as follows.

Option	Combination of components	A*	A	B	C	D	E
AX	11, 21	146	127	90	63	50	38
AY	12, 22	151	127	90	63	50	38

Grade Thresholds are published for all GCE A/AS and IGCSE subjects where a corresponding mark scheme is available.
